International, 1912

Compliments of
AMERICAN SHORT-HORN BREEDERS ASSOCIATION
13 Dexter Park Avenue, Chicago, Ill.

1913

ANNOUNCEMENT

THE remarkable increase of interest in Short-Horn cattle now taking place has created such a demand for illustrations of representative animals that a booklet picturing the best individual animals of our breed has become a necessity. No such pamphlet has ever been issued by our Association and we feel that this work of art will meet the requirements and be appreciated by all who are interested in our breed.

The American Short-Horn Breeders' Association takes pleasure in presenting this pictorial review of prize winners.

ROY. G. GROVES
Secretary

A TRIBUTE TO SHORT-HORNS

The cosmopolitan breed full-fed the pride of its enthusiastic adherents in its exhibit of breeding cattle and bullocks. From the inception of the International the rock on which the breeding cattle section has rested was hewn from the breed whose blood laid the foundation of cattle improvement in America. Always predominant in numbers, ever convincing in character, the Short-Horns have consistently written some of the brightest chapters in show yard history at these December exhibitions. Commanding the patronage of the wealthy and the approval of the poor to a greater extent than any other beef breed, covering wider stretches of territory than any other bovine race, enlisting in its ranks men of breadth of vision in business and skill in breeding, it is not strange that eyes instinctively turn toward the Short-Horn section of the show, expecting to find in numbers, strength and interest, the dominating feature of the breeding cattle division. A trifle less in numbers than last year by reason of the demands made on the leading herds for show material all over the country, the average of merit was heightened rather than lowered. Those conversant with the extraordinary exhibit of preceding years may well believe that all obligations resting on breeders at this world-interesting show were more than met. It was a satisfying, an inspiring, an enthusing exhibit.

BREEDERS' GAZETTE

J. H. PICKRELL

Born March 20, 1834. Died February 12, 1901. First President of the American Short-Horn Breeders' Association, serving from June 8, 1882, until November 20, 1884, when he resigned to accept the office of Secretary, which he held at the time of his death.

HON. EMORY COBB

Born August 20, 1830. Died April 14, 1910. Elected President November 20, 1884, and served until November, 1888.

N. P. CLARKE

Born April 8, 1836. Died June 29, 1912. Pioneer breeder of the Northwest, and one of America's leading importers and showmen. The cattle imported and bred by him have left an impress upon the breed, which is a monument to an active and useful life.

JOHN W. GROVES

Born June 13, 1849. Died April 2, 1912. Elected to the office of Secretary in February, 1901, which he held at the time of his death.
